

## **Joyner Library Procedure Manual**

**200.49**

**Subject:**

**Title:** Lactation Support

**Administrative Procedure – Date Issued by Administration:** Sept. 1, 2016

**Date Revised:**

It is the intent of East Carolina University to be recognized as a family friendly workplace by assisting working mothers with the transition back to work following the birth of a child by providing lactation support. A lactation support program allows a nursing mother to express breast milk periodically during the work day.

Joyner Library provides for lactation support through the use of a locked room. The room contains two private cubicles with curtains, comfortable seating, a refrigerator, and lockers. Employees of ALS (including student workers) may be issued a key to the room for the duration they need to use it. Other people within Joyner Library, including university employees, students and community members may use the room by requesting access at the security guard station.
